Certain industry, market and competitive position data contained in this Presentation, if any, come from official or third party sources. Third party industry publications, studies and surveys generally state that the data contained therein has been obtained from sources believed to be reliable, but that there is no guarantee of the accuracy or completeness of such data. While the Company believes that each of these publications, studies and surveys has been prepared by a reputable source, the Company has not independently verified the data contained therein, and the Company assumes no responsibility whatsoever in respect of the accuracy and completeness of any such data. In addition, certain industry, market and competitive position data contained in this Presentation come from the Company's own internal research and certain estimates are based on the knowledge and experience of the Company's management in the market in which the Company operates. While the Company believes that such research and estimates are reasonable and reliable, they, and their underlying methodology and assumptions, have not been verified by any independent source for accuracy or completeness and are subject to change without notice. Accordingly, no reliance should be placed on any of the industry, market or competitive position data contained in this Presentation.

The Information is not all-inclusive nor does it contain all information that may be desirable or required in order to properly evaluate the Group (or any members thereof) or a related investment decision. No part of the Information should form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever. You are solely responsible for forming your own opinions and conclusions on the Information and the market and for making your own independent assessment of the Information. You are also solely responsible for seeking independent professional advice in relation to the Information and any action taken on the basis of the Information. Statements in the Information and Presentation, including those regarding the possible or assumed future or other performance of the Company and its affiliates or its industry or other trend projections (including with respect to further developments in relation to the Coronavirus SARS-CoV-2 ("COVID-19") pandemic), constitute forward-looking statements. These statements reflect the Company's current knowledge and expectations and projections about future events and may be identified by the context of such statements or words such as "anticipate", "believe", "could", "expect", "intend", "may", "project", "should", "will", "would", "target" or similar terminology. Actual results, performance, or events may differ materially from those in such statements. By their nature, forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors because they relate to events and depend on circumstances that will occur in the future whether or not outside the control of the Company. Such factors may cause actual results, performance or developments to differ materially from those expressed or implied by such forward-looking statements. Financial information of the Company or the Group as of and for the six-month period ended June 30, 2021 included in this Presentation is unaudited. The addition of the totals presented may result in rounding differences. In addition to figures prepared in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS"), this Presentation also includes certain non-GAAP financial performance measures. These non-GAAP measures have been included because we believe that investors may find them helpful to measure our performance as reported under the relevant IFRS measures. However, these non-GAAP measures should be considered only in addition to, but not in isolation or as a substitute for, the information prepared in accordance with IFRS. Non-GAAP financial performance measures are not subject to IFRS or any other generally accepted accounting principles, and other companies that report similarly named non-GAAP measures may define or calculate these financial performance measures in different ways. The Information contains certain supplemental measures of operating and financial performance that are not calculated in accordance with IFRS or the German Commercial Code (*Handelsgesetzbuch*) and German generally accepted accounting principles, and are therefore considered non-IFRS measures. The Group believes that such non-IFRS measures, when considered in conjunction with (but not in lieu of) other measures that are computed in accordance with IFRS, may enhance the understanding of its financial performance by excluding items that are not classified as part of its ongoing operations. However, non-IFRS measures have important limitations as analytical tools and should not be considered in isolation, or as substitutes for, the analysis of the Group's results of operations, financial position, and cash flows as reported under IFRS. The non-IFRS measures used by the Group may also differ from, and not be comparable to, similarly titled measures used by other companies.

The Information is not, and should not be construed as, a prospectus, is not intended for potential investors and does not constitute or form part of, and should not be construed as an offer or the solicitation of an offer to subscribe for or purchase securities of the Company, and nothing contained therein shall form the basis of or be relied on in connection with any contract or commitment whatsoever, in particular, it must not be used in making any investment decision. In member states of the European Economic Area ("EEA") and the United Kingdom, the Information is only addressed to and directed at persons who are qualified investors within the meaning of Article 2(e) of the Prospectus Regulation (EU) 2017/1129, as amended ("Qualified Investors"). In addition, in the UK, the Information is addressed to and directed only at, and should only be relied on by, Qualified Investors who are persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order"), and persons who are high net worth entities falling within Article 49(2)(a) to (d) of the Order or are persons to whom it may otherwise be lawful to communicate it to (all such persons being referred to as "relevant persons"). If you have received the Information and you are (i) in the UK and not a relevant person, or (ii) in the EEA and not a Qualified Investor, you must return this document immediately to the Company. Any investment or investment activity to which the Information relates is available only to relevant persons or will be engaged in only with relevant persons.

Upon receipt of this Presentation, you warrant, represent, acknowledge and agree to and with the Company that (i) you are a relevant person (as defined above), (ii) you will not distribute, disclose or provide any Information or material discussed today in any form, alone or as part of or incorporated into any other material, to any other person and (iii) you will not at any time have any discussion, correspondence or contact concerning this Presentation with any of the directors, employees or shareholders of the Company or its subsidiaries nor with any of their suppliers without the prior written consent of the Company.
